

SUSHANT KUMAR YADAV

+91 7387321040 sushantkumaryadav912@gmail.com linkedin.com/in/sushantkumaryadav github.com/sushantkumaryadav912 Pune, India

Summary

Computer Engineering student (graduating Jul 2027) with internship experience in mobile development and a strong foundation in backend systems, cloud infrastructure, and DevOps. Hackathon winner. Certified in networking (CCNA x3), cloud (Nutanix NCA, AWS), and cybersecurity. Proven ability to independently build and ship full-stack, cloud-native, and security-focused systems.

Education

Symbiosis Institute of Technology (SIT)

Aug 2023 – Jul 2027

B.Tech, Computer Science

Pune, India

– **Coursework:** Data Structures & Algorithms, OOP, Operating Systems, Computer Networks, DBMS, Software Engineering

Experience

Olcademy

Sep 2025 – Mar 2026

Mobile Application Developer Intern

Remote

- Diagnosed and resolved **15+** bugs in the React Native codebase, measurably improving application stability.
- Collaborated with a remote team to ship features contributing to a **10% improvement** in overall app performance.

CodeX SIT

Sep 2024 – Aug 2025

Programming Community Lead

Pune, India

- Led an Agile team of 5 to build the official club website, boosting user engagement by **25%**.
- Mentored **10+ junior members** in Git and Python, fostering a productive and collaborative team environment.

Projects

CIDR – Cloud Incident Detection & Response Platform | *Java, Spring Boot, Python, Docker, AWS, Kafka*

In Progress

- Building a real-time cloud security platform that detects and responds to infrastructure incidents using event streaming and ML-based anomaly detection.
- Microservices backend (Spring Boot + Flask) with Kafka event bus, containerized via Docker, deployed on AWS EC2/S3 with automated alerting pipelines.

CloudHost – PaaS Deployment Platform | *Java, Next.js, Docker, Proxmox, Nginx*

Ongoing

- Built a Vercel-like PaaS enabling one-click web app deployment from a ZIP file with automated env variable injection and VM provisioning via the **Proxmox API**.
- Java backend handles deployment orchestration; Next.js dashboard provides live deployment status and resource monitoring.

SmartHealthChain – AI Healthcare Platform | *Java, Spring Boot, Python/Flask, Scikit-learn, Hugging Face, JavaFX* **Apr 2025**

- Multi-service platform with a Python/Flask microservice using Scikit-learn + Hugging Face Transformers to generate personalized AI health reports from patient data.
- REST APIs integrate services for appointment scheduling, records management, and role-based access via a JavaFX desktop client.

Food Ordering App | *React Native, Firebase, Azure Blob Storage*

Sep 2025

- Dual-role mobile app (customer + restaurant) with real-time order tracking; secured image pipeline via **Azure Blob SAS tokens** and Firestore role-based access rules.

Technical Skills

Languages: Java, C++, Python, JavaScript (ES6+), TypeScript, SQL, Bash

Cloud & DevOps: AWS (EC2, S3), Microsoft Azure, Docker, Proxmox, Nginx, GitHub Actions (CI/CD), Linux

Backend: Spring Boot, Node.js/Express, Flask, REST APIs, WebSockets, JWT, Kafka

Frontend & Mobile: React, Next.js, React Native (Expo), JavaFX, Tailwind CSS

Databases: MongoDB, MySQL, PostgreSQL, Firebase, MariaDB, SQLite

AI/ML: Scikit-learn, PyTorch, TensorFlow, Hugging Face Transformers, Pandas, NumPy

Security & Networking: WireGuard/VPN, Firestore security rules, CCNA networking, Cybersecurity fundamentals

Certifications

Nutanix Certified Associate 6 (Nutanix) – Mar 2026 **CCNA: Enterprise Networking, Security & Automation** (Cisco) – Oct 2025

CCNA: Switching, Routing & Wireless Essentials (Cisco) – Sep 2025 **CCNA: Introduction to Networks** (Cisco) – Aug 2025

AWS Solutions Architecture Job Simulation (Forage) – Jul 2025 **Foundations of Cybersecurity** (Google) – Jan 2024

Leadership & Achievements

"2Fast2Hack" Hackathon – 1st Place

Mar 2025

Awarded by GDGC & ACM Student Chapter, SIT

Pune, India

- Built **GreenHouse** – a React Native smart home app using AI/LSTM models to monitor and automate electricity usage in real time.

SymbiTech Tech Fest – Head of Hospitality

Oct 2024 – Jan 2025

Led 15-person team for a 1,000+ attendee tech-fest

Pune, India
